Meeting of Research and Development Cell: Subcommittee on Legal and Ethical Matters

Agenda of the meeting:

With reference to letter of Director of R & D cell (Dated 01.08.2023) to discuss about legal and ethical issues related to research and development in college.

**Minutes of the Meeting:**

The meeting of Research and Development Cell: Subcommittee on Legal and Ethical Matters was held at Department of Physics, DAV College, Kanpur (UP) on 11-08-2023. Following points are recommended with agreement in the meeting:

1. The committee suggests that research students and faculty members should get access to the online plagiarism checking facility by the university. This will help them to check plagiarism of their manuscripts by themselves.
2. The committee suggests that faculty members and research scholars have their presence registered at known research platforms such as Vidwan, Google Scholar, Orcid, Research Gate etc. They are advised to carefully monitor and update their work on these platforms by removing auto additions of research papers and adding newly published self-research work.
3. The committee suggests to create awareness about legal and ethical issues in research and development through workshops. These issues incorporate research paper writing, predatory publishing, plagiarism, patent, data validation, research proposal writing etc.
4. कला के अनुशासन में जीवित व्यक्ति केन्द्रित शोध न होकर प्रचलित नवीन विषयगत विधाओं पर शोध को बढ़ावा दिया जाना चाहिए। जिससे शोधार्थी वर्तमान में प्रचलित विधाओं की खूबियों एवं खामियों को समाज से अवगत करा सके।
